

SUMMER ACADEMIC REQUIREMENTS

MATH - GRADES 6th, 7th and 8th

Grade 6 (Incoming Seventh Graders):

In an effort to maintain your math skills during the summer months, please make sure you are logging into i-Ready Math or IXL Math five days a week, 30 minutes per day. In i-Ready, you should continue to follow your path. In IXL, you may complete any sixth or seventh grade section that focuses on fractions, decimals, percents, ratio and rates, or integers.

Grade 7 (Incoming Eighth Graders):

In an effort to maintain your math skills during the summer months, please make sure you are logging into i-Ready Math or IXL Math five days a week, 30 minutes per day. In i-Ready, you should continue to follow your path. In IXL, you may complete any seventh or eighth grade section that focuses on decimals, percents, integers, solving equations, and the Pythagorean Theorem.

Grade 8 (Class of 2020 Graduates!):

In an effort to maintain your math skills during the summer months, please make sure you are logging into i-Ready Math or IXL Math five days a week, 30 minutes per day. In i-Ready, you should continue to follow your path. In IXL, you may complete any eighth grade section that focuses on percents, ratios, rates, and proportions, integers, solving equations, the Pythagorean Theorem, linear equations, and functions.

*****Please note that i-Ready will only be available until July 31st. IXL will be available throughout the entire summer.*****
